

## **Aug 19, 2017 - Presentation by Kimberly Robey**

### **Introduction to Homeopathy**

“The physician’s highest and only calling is to restore health to the sick, which is called Healing.”

Aphorism 1, Organon of the Art of Healing, Samuel Hahnemann

The presentation will cover:

- A brief overview of the history and development of Homeopathy
- What makes Homeopathy different from main-stream medicine
- What conditions are lay use of homeopathy fine for and what conditions require constitutional treatment by a professional
- Q & A

#### **Presenter Biography**

I am a graduate of the Northwestern Academy of Homeopathy and practice at the Minnesota Center for Homeopathy. I hold a B.A. in Psychology and treat all age groups and have experience working with Gender and Sexual Minority clients.

One of the many things I enjoy about practicing homeopathy is seeing the increase in self-awareness experienced by many clients. Clients also learn how to negotiate treatment plans with their medical physicians. Quite often improvements in health are such that clients can taper off of pharmaceuticals, enjoy broader diets, and resume activities more fully.

Some of the chronic conditions I have treated are: Anxiety/Depression, Allergies and Skin Conditions, Dysmenorrhea, Ovarian Cysts, Uterine Fibroids, Breast Cancer, Chronic Pain, Arthritis, Neuralgia, Chronic Fatigue/Myalgia, Chemical Sensitivity, Eating Disorders, Migraine, Raynaud’s, Recurrent Sinusitis/Throat/Bronchial/Lung Infections, Degenerative Hearing Loss, Sexual Dysfunction, Diabetes, IBS/Crohn’s, Autism/Developmental Delays, Learning Problems, Behavioral Disorders.

Homeopathy works wonders in acute situations such as Traumatic Injury, Post-Surgery, Dental Procedures, Poison Ivy, Childhood illnesses such as Chicken Pox, Gastroenteritis, Sun-stroke, and Influenza.
