Special Guest: Sue Vivant

You could call Sue Vivant a medium, in that she is an agent through whom others communicate with spirit guides, angels, and other beings beyond the veil. A mother and grandmother she has been a registered nurse and a programmer. Born in Burnsville she spend a good part of her grade school years on the east coast, moving frequently, but returned to Minnesota to finish high school and stayed.

She credits the Universe with drawing her into the world of angels and spirit guides. By her mid-30s her intuition was actively bringing her knowledge she couldn't account for by conventional means. The Universe conspired to bring her people in need of her services and that has continued for many years. She doesn't advertise her services or have a Web site. The Universe decides whom she can assist and how busy she will be. She says, "Before a client comes I meditate on them, calling in their guides and angels and their higher selves. I do not control the session. The client, her guides and angels control it. I open the door to the other side of the veil."

Sue hasn't spoken to a large group in many years and never on this subject. We Qigong Connection members will be participating in a unique presentation. Our own angels and spirit guides are welcome to share in the experience.

Sue can be reached at (952) 898-2178.
