

## **August 15, 2015 – Presentation by Thomas Jazdzewski**

### **Direct Access**

Tom will present us with his history and studies, explaining how everything has brought him to where he is today. Health and healing is available to everyone who is ready to be quiet, listen, and follow with action. The messages that come to you, which you are listening for, stem from the questions you are asking. You must be open for whatever shows up without judgment. Your interpretation of the messages or your perspective is a result of the level of consciousness you are operating from. Tom will explain his understanding on how to access these answers in a simple and dependable way. He will then demonstrate with group participation, so everyone will have the confidence they need to be able to do this. The art of detecting will also be included. This information has been a focus of Tom's "other than consciousness processes" for quite some time. Tom wants to help as many people as possible shorten the time it takes for them to gain the confidence they are looking for when accessing their own direct information.

Tom Jazdzewski is known for his ability to teach complex topics by putting them in a simple format for people to understand.
