

**October 17, 2015 – Presentation by Gary R. Beaver, M.A.**

### **Induced after Death Communication**

Topic: Induced After Death Communication (IADC) is a miraculous therapy which heals grief and trauma to a degree never before possible. During a successful IADC process a person will first have their sadness about their loved one's death permanently cleared. In the second step of the process the person will have a direct, unmediated experience which most experiencers consider to be an authentic encounter with their deceased loved one. This can include encounters with deceased beloved pets. The profoundly healing benefits are identical regardless of how the experiencer interprets the experience. An IADC is always a very positive event – regardless of the relationship between the experiencer and the deceased at the time of the latter's death.

Presenter: Gary R. Beaver, M.A. is a Licensed Psychologist who has been practicing in the Twin Cities since 1990. He specializes in grief and loss, death and dying and trauma. Gary completed Induced After Death Communication (IADC) training with Dr. Allan L. Botkin, the discoverer of the technique. Gary is a Certified IADC Trainer and also serves on the Induced After Death Communication International Board. He has extensive training and experience in the use of Eye Movement Desensitization and Reprocessing (EMDR), which is the basis of IADC. In June of 2015 Gary was one of the presenters at the Fifth Annual Afterlife Conference in Norfolk, Virginia. Gary's website address is [garyrbeaver.com](http://garyrbeaver.com).
