

August 16, 2014 – Presentation by Ronald E. Moor

The Energies of the Soul

What is Soul? What is Energy? How are soul and energy involved in what we call healing? What role does your healing play in your own spiritual journey? Are you hearing, and heeding, the call of Soul, or following some other agenda?

Ron Moor, an energy healer, teacher, and minister for over 30 years, will offer some life tested observations, insights, and practical techniques to support you on your journey. What he has to share may either challenge you or delight you, or some of both.

Ron Moor responded to his own personal call almost 40 years ago. He left corporate America to begin his quest to know, and to serve. Among his mentors have been Joseph Campbell, Carl Rogers, Rosalyn L. Bruyere and Hyemeyohsts Storm. He has worked with hundreds of students and thousands of clients across the country. He founded and for 25 years was director of The Center For Wholeness here in Minnesota. He has been married, co-parented two fine sons, ministered to three spiritual communities, is on the board at Pathways and currently is the lead minister at Spirit United Community in Minneapolis.
