

## **October 18, 2014 – Presentation by Lois Weber**

### **Connecting with Infinite Energy**

Experience a special hour of understanding, feeling and using infinite energy to help yourself and others. Lois will share a special meditation that came to her when she was preparing to teach a qigong class. You will be guided to become one with your Master's energy and access to limitless love. Honor yourself and your place here on this planet.

Lois Weber lives in Mankato, MN and has practiced and taught qigong for almost 15 years. Her personal search for healing was precipitated by a need to heal an on-going non-union fracture in her leg. Through years of giving and receiving loving energy from other qigong practitioners, meditating and her special connection with her Master, Lois' leg healed. Her favorite component of energy work is teaching others how to connect with infinite energy through their Master.
