

Qigong Connection October 12, 2013

Presentation by Dr. Reenah McGill , L.Ac., Ph.D.

Esoteric Acupuncture

Dr. Reenah McGill will explain how the use of patterns in Esoteric Acupuncture can open the perceptions - intuition - and rebalance the entire chakra system with sometimes less than 10 needles by using an understanding of the root cause of the problem. She will demonstrate and teach how to locate the pools of energy and determine if they are out of balance and show you a simple technique to begin to rebalance the inharmony.

In addition to pursuing education via the more formal route of universities, Dr. McGill studied with a number of shamans and teachers from various traditions including American Indian, Peruvian, European and Mexican. From each of them she learned to develop her natural abilities of clairvoyance, clairsentience, precognition, astral project, remote viewing and channeling information from non-physical entities. She is a trained and certified hypnotist.

Dr. McGill has practiced Esoteric Acupuncture for over nine years. It is a form of acupuncture that raises the vibrations of harmony and balance, by treating the spirit, using the body as the holder for needles. It balances the Chakra Energy System and opens up the intuition of the patient; it has the ability to rid the body of energy from other physical and non-physical entities, thus allowing the person to experience a more balanced and harmonious life.
